### REASONS FOR ALLOWANCE

1. Claims 7-11 and 13-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 7 recites, inter alia, *a housing; a magnetically active core; at least one electrically conductive component having, at least in some areas, an arrangement for an electrically effective evening out of its inside surface, wherein the arrangement adjoins the housing by a smooth surface and wherein the magnetically active core adjoins the same arrangement; and wherein the electrically conductive component is a peripheral core of a compact ignition coil.*

Claim 13 recites, inter alia, *a magnetically active inner core, which is surrounded by a primary winding and a secondary winding; and a magnetically active outer core;*

*wherein the inner core is surrounded by a first electrically conductive plastic covering the inner core on a side facing the primary winding, and the outer core is surrounded by a second electrically conductive plastic covering the inside surface of the outer core on a side facing the secondary winding.*

The reference of record does not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
